Summary

I am experienced in full-stack development with proficiency in TypeScript, Python, and Java. I have worked with various backend and frontend tools, including Node.js, Express.js, Spring Boot, Django, React.js, React Native and Next.js. Now, I am currently seeking opportunities to further develop my skills and contribute to innovative projects within the tech industry.

Experience

Insider One. (Istanbul, Türkiye)

Software Developer

Remote

July 2025 – Present

- Use Case Library: Development of both backend and frontend of the Insider One Use Case Library
- Task Development and System Contribution: I am responsible for Optimus task development and actively contribute to system development efforts
- Code Reviews and Outsourced Task Support: I conduct code reviews and provide essential support for tasks that are outsourced
- Project Participation: I participate as a developer in various Optimus projects
- Meeting Attendance: I attend all required Optimus meetings, including daily stand-ups, retrospectives, reviews, and training sessions. I also participate in broader Insider One meetings such as Strategy, Oasis, Tech Talks, and Dev Talks
- Personal Development: Continuous personal development is a key aspect of my role
- Support and Follow-up: I provide buddy support to colleagues and ensure follow-up on the Kanban board to maintain workflow efficiency
- Question Hours: I attend PST Question Hours to address and resolve technical queries

JotForm. (Ankara, Türkiye)

Summer Intern

Remote

August 2023 – September 2023

- Development of a revision history system for their product, Jotform Approvals, with my team, Jr. Source, as an internship project using Node.js, React.js, SCSS, PHP, and MySQL.

Üstünova Engineering. (Ankara, Türkiye)

Summer Intern

Ankara, Türkiye

July 2023 – August 2023

- Frontend development of a dashboard and a control panel for an EV charging station software, Electr-INN, using Next.js, Node.js, and Django.

Skills
