

Onur Ravli Software Developer

onur@onurravli.com • onurravli.com • linkedin.com/in/onurravli • github.com/onurravli

SUMMARY

Full-stack software developer with proven experience in delivering scalable, type-safe web and cross-platform applications. Specialized in the TypeScript ecosystem (Node.js, Express.js, React, Next.js) with a solid track record of collaborating with remote, international teams. Adept at tackling complex technical challenges, from integrating medical imaging workflows to designing efficient backend architectures. Focused on writing maintainable, clean code that bridges robust system design with practical product needs.

EXPERIENCE

Insider One. (Istanbul, Türkiye)

Software Developer

Remote

July 2025 – Present

- Designed and developed backend and frontend components of the Use Case Library platform using TypeScript, Node.js, and Next.js.
- Contributed to system architecture and feature development within the Optimus ecosystem.
- Conducted code reviews, ensuring high code quality and maintainability standards.

Acanio, LLC. (Orlando, FL)

Full-stack Engineer

Remote

February 2025 – May 2025

- Developed multiple applications for medical imaging using React, React Native, and Electron, enabling cross-platform DICOM image viewing and processing.
- Integrated DICOM standards and libraries to support advanced imaging functionalities for healthcare workflows.

Doc Design and Informatics Co. Ltd. (Istanbul, Türkiye)

Full-stack Engineer

Remote

March 2024 – October 2024

- Built applications using Node.js, Strapi.js, and Electron, focusing on innovative media and educational publishing platforms.
- Developed cross-platform solutions for new media and educational content distribution, leveraging modern web and desktop technologies.

JotForm. (Ankara, Türkiye)

Summer Intern

Remote

August 2023 – September 2023

- Developed a revision history system for Jotform Approvals using Node.js, React, PHP, and MySQL.
- Worked in a collaborative team environment following modern development workflows.

Üstünova Engineering. (Ankara, Türkiye)

Summer Intern

Ankara, Türkiye

July 2023 – August 2023

- Built dashboard and control panel interfaces for EV charging station software (Electr-INN).
- Integrated frontend (Next.js) with backend services (Node.js, Django).

SKILLS

Languages: TypeScript, Python, Java

Backend: Node.js, Express.js, Nest.js, Django, Spring Boot, REST APIs, GraphQL, Kafka, RabbitMQ

Frontend: React.js, React Native, Next.js, Tailwind CSS

Databases: PostgreSQL, MongoDB, MySQL, Redis

Cloud & DevOps: Docker, Docker Compose, Core AWS Services

Testing & Tools: Jest, Postman, Swagger, Git, Claude Code

EDUCATION

Konya Technical University

B.Sc. in Computer Engineering

Konya, Türkiye

September 2022 – Continuing

Konya Technical University

B.Sc. in Electrical & Electronics Engineering

Konya, Türkiye

September 2020 – June 2022 (Undergraduate Transfer)
